To Arthur Kaufman:

I am happy to recommend AnyTime Gutter and Screening. I contacted you November 2010 when I saw the beautiful gutter installation your company had done on a house in my subdivision. I was surprised when you returned my call the very same day. This is not typical in my experience with most companies in the guttering industry.

You and your crew were prompt, professional and clean. I was very grateful that you were also able to repair the damaged fascia board and roof. The work was perfect and many of my neighbors ask who performed the work.

You have a customer for life. Thank you so much.

Regards,

Ernesto & Penne Badillo
