Dear Arthur:

What a great job you did on my home. You and your men were great and every question was answered on the spot.

I originally called so that you could give me a quote on a roof leak as the roofing company who installed my roof less than a year ago refused to return even though I placed numerous calls to his office. Several areas of fascia that the roofer replaced were left unpainted.

You brought it to my attention my entire home was installed with expensive super gutter that included a very large ugly diverter that was installed throughout the home. I now understand what they mean when they say Florida is known for taking advantage of the elderly.

While removing the super gutter, you pointed out broken tiles were installed on my roof rather than new tiles. You also pointed out I had areas of fascia rot, broken screens from the flying debris from when the roofer was removing the old tile and the list goes on and on.

Arthur, I can't thank you enough. You were great. You checked on your men each and every day while your men were working here. My home now looks totally different. All new screens, new gutters, painted fascia, fascia repairs and most important, I no longer have water coming into my home from my roof.

You did a great job and you were so very professional. It was worth every cent to have my home back to normal.

Very truly yours,

Rose Shoskes
